

EMRAM

HIMSS SOLUTION

A strategic roadmap for your digital transformation journey toward optimizing organizational performance outcomes.

The Electronic Medical Record Adoption Model (EMRAM) is an eight stage (0-7) model that measures clinical outcomes, patient engagement and clinician use of EMR technology for acute care hospitals and their affiliated ambulatory care settings, aiming to strengthen organizational performance and health outcomes across patient populations.

Why EMRAM?

For over a decade HIMSS has guided organizations looking to optimize their digital health transformation through the power of measurement and strategy. You could be the next to join this elite group of global Stage 7 EMRAM organizations.

Improve care delivery and clinical outcomes with EMRAM:

- Optimize digital work environments
- Improve performance and financial sustainability
- Build a sustainable workforce
- Support an exceptional patient experience

Benefits to Healthcare Leaders

Personalize

Collaborate with HIMSS advisors to create a strategic roadmap to achieve EMRAM Stage 7.

Compare

Understand how your organization ranks in digital maturity compared to industry benchmarks.

Achieve

Upon reaching EMRAM Stage 7, come together with like-minded leaders to understand, implement, and promote optimal use and recognized value from health IT.

Announce

Recognition of your accomplishment at a major HIMSS event, promotion of your organization's case study, use of the EMRAM Stage 7 logo on your website.
