- Interface Development: Standard & Custom
- Interface Engine Solution
- Interface Training & Support
- Perfect Practice Advisory

Best Practices – Conversions

- Methods of conversions
  - Discrete
  - Hybrid
  - Combined

- What method is right for you?

Best Practices – Store the data

- Benefits of a Static copy of the data
    - Same nomenclature
    - Most simple
    - Cost effective
    - Does not "pollute" new EHR
    - Allows for decommission of servers
    - Eliminates needs for legacy system licenses
    - Single login for providers
    - Multiple systems
    - Integration inside new EHR

Best Practices – Usable data in New EHR

- Leading edge -
  - Direct CCDA Imports
  - HIE links inside EHR
    - Using the EHR as a mini HIE

Best Practices – Continuity of Care Strategies

- Length of time for conversions
  - Could take many years
  - Two different teams
    - New EHR team
    - Legacy system
- What do you do in the interim? Can you avoid the big bang approach
- Population Health systems for continuity from both systems…
