<https://attendee.gotowebinar.com/register/6798850317367016706>

Presentation Description: Wave of next gen patient engagement platforms, puts patient experience in the middle while managing the provider resources efficiently. These systems are designed to have a common platform or a service oriented architecture with integration points for multiple personas to engage across all channels. This design, has some inherent data analytics capabilities to drive informed decisions, apart from improved patient satisfaction and efficiencies in IT systems TCO. We will share learnings of our recent design sessions with State of Maryland.
